

Department: Programs and Services
Section: Special Education

The Annapolis Valley Regional School Board believes that within the student population served by the board there are students with special needs whose programs must be altered in relation to those that are provided to other students in order to provide an appropriate education.

Therefore, the Annapolis Valley Regional School Board will direct school personnel, under the supervision of the principal, to establish a process for program planning and evaluation for students with special needs.

Monitoring:

- The Director of Programs and Services is responsible for the implementation, monitoring and revision of this policy.
- This policy will be monitored annually.
